NEWTON & EINSTEIN
INSTITUTE OF SCIENCE AND TECHNOLOGY

INTRODUCTION TO ARTIFICIAL INTELLIGENCE AND MACHINE LEARNING (AI/ML) SHORT COURSE

DATES: 2ND – 30TH NOV, 2024

PROGRAM: WEEKEND (4 weekends)

TARGET AUDIENCE

This course is designed for beginners in AI and ML, including undergraduate students, tech enthusiasts, and professionals in related fields seeking foundational knowledge and practical skills in artificial intelligence and machine learning.

COURSE OVERVIEW

This course provides a comprehensive introduction to AI/ML, covering key concepts, algorithms, and practical applications. It includes hands-on labs on supervised, unsupervised, and reinforcement learning, real-world use cases and emerging trends in AI.

MODE OF DELIVERY

The course will be delivered online via Zoom with live lectures, hands-on labs, and access to course materials.

APPLICATION PROCEDURES

Send your CV & Academic Documents via **Whatsapp No.: +256 778 318 041 or via E-mail: neist1981@gmail.com**

APPLICATION DEADLINE: 25/10/2024

COURSE FEES

International Students: $300

Ugandans: UGX 400,000

MODULES

The course is divided into four key modules:

1. Foundations of AI and ML
2. Supervised Learning
3. Unsupervised Learning and Data Processing
4. Reinforcement Learning and Future Trends

PAYMENT & REGISTRATION PROCEDURE

Selected participants will receive admission letters and bank account details to make full payment before the start of the course. After banking on the account, scan the Deposit Slip and send it to: **neist1981@gmail.com or WhatsApp: +256 785 389 972**

MAXIMUM NUMBER OF STUDENTS

40 students
